

## **With you**

Josh Groban

Sometimes I remember reasons I let you go  
Inside them I see your face and all I really know  
I was scared to share the love I have inside of me  
Through all the heartache I know that I was meant to be...

## **With you**

**I have everything I've ever wanted**

**Simple and true**

## **With you**

**Crying eyes so beautiful**

**It's you who always thought our love would see us through**

If I could follow my heart again it would be yours  
with every breath I would find a way to love you more  
I can't imagine life without your silent bravery  
And I'm grateful for every moment that I get to be...

## **With you**

**I have everything I've ever wanted**

**Simple and true**

## **With you**

**Loving eyes so beautiful**

**It's you who always finds a way**

And if the stars should disappear  
In the dark I'll still be here  
Forever in your arms where I belong

## **With you**

**I have everything I've ever wanted**

**Simple and true**

## **With you**

**Loving eyes so beautiful**

**It's you who always knew our love would see us through**
